(54) LAMINATED FILM AND PACKAGING BAG

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a laminated film prevented from curling at the time of heat seal processing and a packaging bag obtained by the heat seal processing of the laminated film and suitable for use in a filling and packaging machine.

SOLUTION: In an unstretched laminated film consisting of at least an outermost layer (A) and an innermost layer (B) and obtained by a water quenching method, the outermost layer (A) is constituted of a polybutylene terephthalate homopolymer (a1) and/or a blend resin of a polybutylene terephthalate copolymer (a2) and polyester (a3) other than polybutylene terephthalate and the innermost layer (B) is constituted of a heat-sealable resin.

LEGAL STATUS

[Date of request for examination]

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]
